

St Mary's Catholic Primary School

Sports Impact statement Review 2018/19

Our Sport Funding Premium of £18,480 has enabled us to continue our development in sport . As a result of our funding, our children have accessed an enhanced experience of sports and outdoor activities alongside their continued 2 hours of school curriculum entitlement to meet our schools objectives and the government's 5 key indicators of successful spending of Sports Premium funding.

Following our Impact Statement Review, we can report:

- The school employed a PE Specialist to deliver lessons from reception through to year 6 and this has had an extremely positive impact on children's approach PE and Sport, this has been reported through pupil voice and discussions/feedback from parents.
- PE specialist supports with lunchtimes twice a week, providing activities to ensure children are fully active during their lunchtimes. This will be continued next year with Tas supporting healthy lunchboxes and active lunchtimes.
- Children in year 4 were able to attend weekly swimming lessons and children in year 6 joined them in the summer term.
- We have employed various outside agencies to offer a variety of after school clubs, so more children can access a wider range of sports activities.
- As a result of our funding, we have been able to enter a wide variety of competitions and festivals, both in our cluster and in the Northampton area.
- We have successfully embedded the Daily Mile into the majority of our classes with many classes choosing to do the Daily Mile on non PE days to help our children engage in over 60 minutes of physical exercise a day.
- We have used part of our funding to purchase sports kit so that our children are able to represent our school in competitions in the community with pride.
- Some of our funding was partitioned for the training of staff who then trained our year 5 children to become sports leaders to provide games and activities to children at lunchtimes to aid the children in achieving a minimum of 60 minutes physical activity each day. We purchased equipment which have been invaluable in playground provision
- We have had 5 extra-curricular after school sports clubs running each week which have enabled our children to have experience of a variety of different sports and activities as well as helping them to be as active as possible on a daily basis. We have also continued our daily change4life exercise club which takes place at lunchtime where we especially target our least active children. We were careful to ensure that our clubs involved children of all ages and abilities in our school. Some of these clubs include:

- Multi Sports (Key Stage 2)
- Fun and fitness
- Tennis
- Football
-

Additional to this we had a dance specialist work with most classes focusing on Shakespeare's Romeo and Juliet and Matilda .

- We allocated some of our funding to give our children experience of specialist sports coaches with links to popular sports clubs in our area. We were careful to ensure that wherever possible, we linked with organisations that were able to provide our staff with CPD (continued professional development).
 - FA Skills Programme
 - Gymnastics Provision
 - Dance Provision
-
- We have purchased a variety of playground equipment for children to be able to take part in sports in their own time that they have experienced in PE lessons. We have purchased footballs, tennis equipment, skipping ropes, basketball nets and balls as well as throwing and catching apparatus.
 - We have purchased new sports equipment to allow teaching staff to deliver an increased range of sports during children's PE sessions. So that we can teach this ourselves for years to come without relying on external agencies.
 - Purchase of literacy equipment for the whole school cross-curricular activities.
