Action Plan

Eco-Schools Topic:
Water

Aim:
To save water by turning off taps. Educating staff and pupils about how we could all save water at home and in school.

Action(s):
Hold an assembly and inform children about how water is being wasted in school.
Design posters to be displayed at sinks telling everyone to make sure all taps are turned off properly.
Invite in the water board.

How long will it take?

1 – 6 weeks

Who is responsible?
Eco Committee.
Whole school
Mrs. Blincow

How we will monitor progress:
Check water readings before and after.

Are children and staff saving water?

Evaluation:

Eco-Schools Topic:
Waste

Aim:
Cut down on the amount of photocopying and laminating done in school.

Action(s):
Speak to admin staff and find out how much is spent on paper and laminating pouches.
Ask staff, where possible not to photocopy and try a 4 week ban on laminating.

How long will it take?

Now – 4 weeks to start with

Who is responsible?
All staff.

How we will monitor progress:
Find out difference on money spent on paper and laminating over the periods.

Evaluation:

Eco-Schools Topic:
Energy

Aim:
Reduce the energy bills in the school.

Action(s):
Find out where the energy meter is.
Appoint light and computer monitors to ensure these are switched off when not in use.
Look into renewable energy sources.

How long will it take?

- From immediate effect - on going

Who is responsible?
Eco committee
SLT (Mrs. Blincow)

How we will monitor progress:
On going through energy bills.

Evaluation:
