

Vision - Writing

And He who sits on the throne said, "Behold, I am making all things new." And He said, "Write, for these words are faithful and true." Revelations 21:5

At St. Mary's Catholic Primary, we aim to be a school where writing is embraced and enjoyed by all children; where all children have equal access to inspiring resources, to become **resilient** writers who make it a goal to welcome writing setbacks, no matter how frustrating, big or small—as lessons from which to learn.

It is our vision to inspire our children to be enthusiastic, lively writers with an innate desire to read for pleasure. Children who have an **awareness** of both classical and contemporary writers and the impact their writings has had on writing in general. Where children will experience an abundance of quality, engaging texts that stimulate them to write in lessons and ignite in them **aspirations** that they too can become successful writers; delivered by teachers with excellent subject knowledge that motivate children to achieve their potential.

Writing is a personal, expressive and important skill which is promoted in our school, leading to writers who are confident producing written work across all curriculum areas, writing with **compassion**, kindness and imagination, as well as having the skills and knowledge to be able to formalise explanations, arguments and descriptions.
