Did you know?

Read these interesting facts about summer and garden plants and animals with a parent, carer or teacher.

A plant is a living thing. A sunflower is a type of plant.

Plants need air, sunlight, warmth, water and nutrients from soil to grow.

Parts of a plant include the roots, stem, leaves, flowers and petals.

An animal is a living thing. A butterfly is an animal. It is a type of insect.

Insects have six legs, two antennae and a hard outer shell. Some insects have wings.

In summer, on hot, sunny days, it is important to wear sun cream, sun hats, sunglasses and drink plenty of water.
